*Location: Sullivan County BOCES Administration Building, 6 Wierk Ave., Liberty, NY*

**This highly interactive four-hour program encourages young drivers between the ages of 16 and 24 to take responsibility for their driving behavior. Skill practices and on-the-spot defensive driving techniques help change bravado to confidence.**

**Vehicle crashes are the #1 cause of death** for people between the ages of 16 and 24. The National Safety Council, a leader in driver improvement training for more than 40 years, developed DDC-Alive at 25 to specifically target drivers in this age group.

- Since 1995, more than 400,000 young adults have learned life-saving defensive driving skills through DDC-Alive at 25.
- In a recent study by the Colorado State patrol, 93% of DDC-Alive at 25 participants said they would change their driving behavior afterwards.
- Courts and schools nationwide use DDC-Alive at 25 in their graduated license and violator programs.

**DDC-Alive at 25** teaches young adults that:

- People in their age group are more likely to be hurt or killed in a vehicle crash.
- Inexperience, distractions, and peer pressure cause unique driving hazards.
- Speeding, alcohol, and "party drugs" greatly increase their risk of injury or death.
- As a driver or passenger, they can greatly reduce their risk by taking control.
- Committing to changing their behavior makes personal legal and financial sense.
